

ARUNKUMAR PITCHIAH

Business Application Developer | Microsoft Power Platform | Low-Code Solutions

Chennai, TN | 8825542370 | arunkumarpitchiah@gmail.com | linkedin.com/in/arunkumar-pitchiah | arunkumar-pitchiah.github.io/ArPPortfolio

PROFESSIONAL SUMMARY

Business Application Developer designing enterprise applications and workflow automation on the Microsoft Power Platform, with hands-on frontend development experience strengthening UI/UX quality. Skilled at translating business requirements into scalable low-code solutions that improve productivity and operational efficiency, combined with AI-assisted development to accelerate delivery.

CORE SKILLS

Low-Code Platforms	Power Apps, Power Automate, Power Pages, Dataverse
Microsoft 365 & Collaboration	SharePoint Online, Lists & Libraries, Site Page Modernization, Permissions, Document Management
Data & Analytics	Power BI, Data Integration (SQL Server to SharePoint)
Dev & Automation Tools	VS Code, Power Platform CLI (PAC CLI), PowerShell, Azure DevOps (Agile Scrum, Sprint/Board Management)
Web & UI	HTML, CSS, Bootstrap, AngularJS, Responsive Design
AI-Assisted Development	Microsoft Copilot, GitHub Copilot, ChatGPT, Claude, Prompt Engineering
Certifications	PL-300: Microsoft Power BI Data Analyst Associate

EXPERIENCE

Software Engineer | Microsoft Power Platform Developer — Veelead Solutions, Chennai

Apr 2024 – Present

- Designed and delivered enterprise business applications — Helpdesk (ticket management, comment tracking, automated email notifications), Access Card Request (multi-location approval routing), and a mail-based Helpdesk with deep-link ticket navigation — for healthcare and industrial clients; supported a manufacturing client's CAPA application via KT and authored user manual documentation.
- Built Power Automate flows for Expense Management and Asset Management applications, covering end-to-end approval routing and tracking business logic.
- Led a SharePoint modernization initiative across 450+ site pages — standardized layouts and replaced/injected web parts; built a PowerShell automation script to apply bulk changes, cutting manual page-by-page effort and delivery turnaround time.
- Designed and developed a role-based Time Tracking system (Power Apps, Power Automate, SharePoint) with Employee/Approver/Power User dashboards, dynamic week-based period selection, %Time allocation validation, auto-balance adjustment, and indexed delegation tracking.
- Delivered MRB application upgrades (NCM ID logic redesign, attachment/log-indicator fixes across four inspection modules) and LPA process automation (multi-stage notification flows, escalation routing, and a Power BI report with bookmark-based navigation for audit tracking and compliance analysis).
- Implemented full and scheduled SQL Server-to-SharePoint synchronization via Power Automate, managing bulk data flows with error handling across seven SharePoint lists.
- Upgraded internal Helpdesk/LMS tools, delivered SharePoint & Power Automate training, and conducted R&D on AI-assisted Power Pages development (PAC CLI, GitHub Copilot).

Software Engineer — Geo Exploration Services & Analysis, Chennai

Mar 2022 – Apr 2023

- Resolved frontend UI and responsiveness issues using AngularJS on a medical clinic web application and an e-commerce service management platform, improving overall user experience.
- Maintained an internal employee attendance system, fixing UI bugs and improving usability.

Technical Recruiter — Tiliconveli Tech Park, Tirunelveli

Jun 2021 – Mar 2022

- Matched candidate profiles to IT job requirements and built foundational IT domain knowledge, developing strong communication and stakeholder coordination skills.

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate (PL-300) — Microsoft | Prompt Engineering — Udemy | Power Platform Fundamentals — Udemy

EDUCATION

Bachelor of Computer Applications (BCA) — Manonmaniam Sundaranar University, Tirunelveli

2018 – 2021

Languages: Tamil, English
